

Need Power?

Introducing WNY's *first*:

Disaster Recovery / Business Continuity solution for short term power outages...

One call and your solution is on the way. 'Plug In and Power Up' those servers, phones, desktops and lights. Enough power to run those critical systems, access your information, and serve it up to your clients. Enough power to get your web/order entry systems back on-line, so your clients can buy your products and services. Enough power to answer phone calls, so your clients don't have to call someone else. Enough power to get your business back up and running...

Simple to order and use. We dispatch our state of the art Mobile Power Vehicle to your site, secure it, start it, and test it. You plug in and power up those critical systems while we're there to assist. We provide all heavy duty/heavy gauge extension cords, line filters and power smoothers, outlets, and power strips. 'Clean' Consistent Filtered Power, 24x7 Operation, RUSH/After Hours Services available.

We protect information, whether we're storing it, backing it up, restoring or destroying it. Period, end of story...
