

Press Release

Lincoln Archives, Inc. / LACyber - Announces Intent to Acquire a WNY-Based IT/Managed Services Company

Buffalo, NY – July 10, 2024 – Lincoln Archives, Inc., a leading provider of Information Security, Governance, Risk and Compliance services, is excited to announce its intent to acquire a Western New York-based IT services company. The strategic acquisition aims to expand our service offerings and enhance our ability to deliver comprehensive, secure, and innovative IT solutions to our clients.

By integrating the expertise of an WNY-based IT services company, Lincoln Archives, Inc. will be able to offer an even broader range of services, including enhanced Managed (IT) Services, Managed Cybersecurity Services, Data Protection and cutting-edge cloud solutions. This move is a testament to our commitment to continually improving the value we provide to our clients.

This sought-after acquisition is part of our strategic growth plan to diversify our services and reinforce our position as a leader in the industry while maintaining the high standards our clients have come to expect. We believe this will lead to greater innovation, efficiency, and enhanced service delivery.

We have a very specific type of business we'd like to acquire. We are interested in speaking directly to interested business owners, not business brokers or M&A consultants. If you fit that bill, and are interested in learning more, or if you know someone who might be interested, please contact:
